Reliance Natural Resources (Singapore) Pte Ltd.

Notes to the financial statements for the year ended March 31, 2019

1. General Information:

The Company is incorporated in Singapore and it is a wholly owned subsidiary of Reliance Power Limited. The Principal activity of the company is that of investment holding.

2. Significant Accounting Policies:

Basis of preperation, measurement and significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of Preparation

Compliance with Ind AS

The financial statement of the company have been prepared in accordance with indian Accounting Standards ("Ind AS") notified under the Companies (Indian Acounting Standards) Rules, 2015 as amended and relevent provisions of the Companies Act, 2013("The Act")

Historical cost convention

The financial statements have been prepared under the historical cost convention, as modified by the following a Certain financial assets and financial liabilities at fair value

b) Investments and other financial assets

Classification

The Company classifies its financial assets in the following measurement category:

those to be measured subsequently at fair value through profit or loss

those measured at amortised cost

Contributed equity:

Equity shares are calssified as equity, incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, netof tax, from the proceeds.

c) Provisions and Contingent Liabilities/Assets

Provisions:

Provisions are recognised when there is present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of reporting period. The discount rate used to determine the present value is pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as intererst expenses.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by occurence or non occurence of one or more uncertain future events not wholly with in the control of the Company. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made, is termed as contingent liability

Contingent Assets

A contingent asset is disclosed, where an inflow of economic benefits is probable.

d) Foreign Currency Translation:

- i) Foreign currency transactions are transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions
- ii) All exchange differences arising on reporting on foreign currency monetary items at rates different from those at which they were initially recorded are recognised in the statement of Profit and Loss.
- iii) Non-monetary items denominated in foreign currency are stated at the rates prevailing on the date of the transactions/ exchange rate at which transaction is actually effected.

Foreign currency transactions are accounted at the exchange rates prevailing on the date of the transactions. Exchange differences arising on reporting of short term foreign currency monetary items at rates different from those at which they were initially recorded are recorded in the Profit and Loss Statement of account.

e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

f) Cash and Cash equivlents:

Cash and cash equivlents includes cash on hand, demand deposits with banks, short-term balances (with an original maturity of three months or less from date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignficant risk of change in value.
